SUMMARY

Synopsis of Bill

Senate Bill 439 amends the Motor Vehicle Code to require that temporary permits be displayed to the inside left rear window of the vehicle. Current law requires these permits to be displayed in the same manner as a registration plate.

Significant Issues

The Motor Vehicle Division issues temporary permits for a variety of reasons, including for use by drivers whose applications for registration and certification of title are pending and for car dealers.

DPS indicates that this change may assist law enforcement to more easily identify temporary permits.
